Dear Parents,

Congratulations! Your child now has access to Señor Woolly, the most exciting and comprehensive Spanish language acquisition website available!

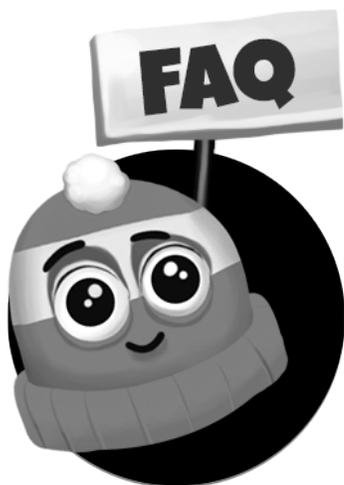

What makes this program different from other language learning apps and websites? With Señor Woolly, students don't learn Spanish. They *acquire* it via musical stories.

Quite simply, **we tell the most engaging, funny, and memorable educational stories around, and we do so using practical and simple Spanish.**

Don't be surprised when your child starts talking about an epic romance between clothing articles. Don't be surprised when they sing in Spanish every time they have to go to the bathroom. And don't be surprised when your child wants to spend their free time using the Señor Woolly website.

We are positive your child will rave about, or even obsess over, this bizarre, entertaining, and thoroughly-vetted language acquisition program.

Just don't tell them it's educational.

### Q) What are "Nuggets"?

Nuggets are gamified language activities that recycle the language from the videos in new and unique ways in order to promote Spanish acquisition. Completing a single Nugget usually takes between 5 and 15 minutes.

### Q) What exactly is my child *learning* with Señor Woolly?

At first glance, Señor Woolly looks different from other language programs. That's because it *is* different! We don't teach grammar explicitly or require students to memorize lists of vocabulary. Our aim is to provide language in a unique, musical, and comical way. Over time, the language in these stories will begin to naturally emerge from students' writing and speech.
